	SOURCE	INFORMATION
1. Site ID Number		
2. Site Name	RWQCB File	Jasco Chemical Co., Villa Street
3. Site Location	RWQCB File	1710 Villa St. Mountain View, CA
4. County	RWQCB File	Santa Clara
5. Owner (Address & telephone no.)	RWQCB File	Jasco Chemical Corporation 1710 Villa St. Mountain View, CA 94042 (415) 968-6005
6. Operator (Address & telephone no.)	9/17/86 telephone conversation with Ronald Clawson	Jasco Chemical Corporation 1710 Villa St. Mountain View, CA 94042 (415) 968-6005
7. Type of Ownership	"	Private
8. Status	8/1/86 RWQCB File	Active
9. Source Activity	8/1/86 RWQCB site visit.	Manufacture of paint remover, stains, and other chemical products.
10. Years of Operation	8/1/86 RWQCB File	About 10 years
11. Facility Type	Jan. 14, 1983 RWQCB spill Incident report. May 15, 1985 Quest. Engineering Reports.	There is concern of part illegal dumping of solvents to a drainage ditch to the rear of the facility. Underground tanks appear intact.
12. Waste Type and Description	Jasco Chemical Corp. letter dated 8/29/86	Unknown solvent. A monitoring well was installed and soil and groundwater samples were collected. A technical report was due 9/9/86. That report is to include a discussion of the results.

* EPA IPA to RWQCB

Contacts

Mr. Max Anthony, President, Jasco Chemical Corp. (913) 968-15 (6/11/86, 8/1/86)
Mr. Daniel Thomas, General Manager, Jasco Chemical Corp. (913) 968-722 (6/11/86, 7/22/86)

Incidents

A January 14, 1983 complaint from a private citizen claimed that the facility dumped solvents at the rear of the buildings on a daily basis. The RWQCB requested Jasco Chemical Corp. to install a monitoring well at the alleged spill site to determine if the groundwater is contaminated.

Fire and Explosion No Direct Contact No

Inspections (date, type, by whom, recommendations)

8/1/86 by Ronald Clawson, RWQCB. This was a general site visit to determine where the Jan. 1983, alleged dumping occurred and to discuss the siting of a proposed groundwater monitoring well with the Jasco Chemical Corporation consultant, Questa Engineering Geologist, Patrick Casey.

6. Enforcement History (list date, type of action, requirements, outcome)

None

7.a. Initial recommendation for further action:

A detailed site investigation may be necessary if the new monitoring well located adjacent to an area of reported past spillage is contaminated. If contaminated, then the site should also be scored using the Hazard Ranking System.

7.b. EPA recommendation for further action: *Active. Based upon data obtained via phone conversations with Jasco, the Regional Board will be conducting a site investigation. The site investigation should be reviewed for Hazard Ranking scoring. Mary Meadows 12/9/86*

8. Response Termination: No Further Action Pending ☒ Active

Justification: *This site is a high priority for a follow up Site Investigation by the RWQCB. Contamination (MEK) has been documented & this is not a PCRA facility. Site should be scored ASAP.*
